

I have been a subscriber to FM radio for about two months. I am very impress with the service I get for my money. I like to idea of learning trafficc reports and weather for other major cities that are within a days drive. This has been helpful when I am traveling. This and other services are not available on a standard redio. Please reject NAB's petition 04-160.  
Sincerely,

Andrew Burridge.  
Pelham Alabama.
